## **Tango Networks Abrazo V4.2 Certified With Cisco Unified Communications Manager 6.1 and 7.0**

RICHARDSON, TX, JULY 22, 2009 – Tango Networks™ announced that it's Abrazo™; version 4.2 has successfully completed interoperability testing with Cisco Unified Communications Manager (CUCM), version 6.1 and 7.0. This will allow enterprises using CUCM to benefit from Tango Networks Abrazo™; the most advanced unified communications fixed mobile convergence solution available.

Tango Networks is a proud member of the Cisco Technology Developer Program. The Cisco Technology Developer Program (<http://www.cisco.com/go/ctdp>) unites Cisco with third-party developers of hardware and software to deliver tested interoperable solutions to joint customers. Members of the program share Cisco's strong commitment to customer service and satisfaction and are required to undergo interoperability testing based on criteria set forth by Cisco. With Cisco Technology Developer Program member offerings such as Tango Networks' Abrazo™, version 4.2, and customers can more quickly deploy a broad range of Cisco Compatible business applications that can enhance the capabilities, performance, and management of their Cisco network.

\* The interoperability testing is designed to simulate typical customer configurations, and does not replace the need for on-site testing in conjunction with actual implementation.

### **About Tango Networks**

Tango Networks integrates mobile phones into the corporate enterprise, enabling any mobile phone to become a true extension on the enterprise unified communications or PBX network. With the award-winning Abrazo, enterprises benefit from cost savings and control over mobile service while enabling employees to be more responsive to business needs by providing advanced unified communications and desk phone capabilities on any mobile device. Only Tango Networks' Abrazo leverages the true power of fixed-mobile convergence, fixed-mobile substitution and unified communications to meet an enterprise's continuously evolving business and technology needs. Two phones. One solution. That's Tango. For more information, dance over to [www.tango-networks.com](http://www.tango-networks.com).
