PRESS RELEASE

NTELOS Selects Tango Networks for Unified Communications Enhanced Fixed Mobile Convergence Solution

With a single phone number for both office and mobile phones, NTELOS customers will benefit from the productivity and accessibility tools of unified communications no matter where they are.

Waynesboro, VA and Richardson, TX, October 6, 2009 – NTELOS, a leading provider of wireless and wireline communications services to consumers and businesses in Virginia and West Virginia, today announced the selection of Tango Networks fixed-mobile convergence solution, Abrazo™. By adding fixed-mobile convergence capabilities to its Wireless and Wireline services, NTELOS will enable business customers to access money-saving dialing plans using a single phone number and unified voicemail box.

“Increased mobility and accessibility are emerging as top business priorities throughout the world, and we are confident that the integration of our Wireline and Wireless services with Tango’s mobile communications technology will help drive productivity for our customers and enhance their overall communications experience,” said James Hyde, president and chief operating officer at [nTelos](#).

“With convergence, the mobile phone becomes an extension of a company’s business communications infrastructure,” stated Alastair Westgarth, chief executive officer and president at [Tango Networks](#). “By adding mobility to its solution, [nTelos](#) is providing its enterprise customers the means to extend transparently their unified communications to their NTELOS mobile device.”

Tango Networks’ Abrazo products give telecommunications providers the competitive advantage to grow market share and increase revenues by tightly integrating enterprise customers to the mobile network based on its unique hybrid architecture. The Abrazo enables **any** mobile phone (simple phone, smart phone) to become an extension of **any** corporate PBX or Unified Communications system, including hosted IP-Centrex systems, on the mobile network. This functionality enables businesses to gain control over mobile usage and to offer superior features to promote productivity.

About NTELOS

NTELOS Holdings Corp. is an integrated communications provider with headquarters in Waynesboro, VA. NTELOS provides products and services to customers in Virginia, West Virginia, Kentucky, Ohio, Tennessee, Maryland and North Carolina, including wireless phone service, local and long distance telephone services, IPTV-based video services, and data services for internet access and wide area networking.
